

SANJAY S

Software Development Engineer

Mobile Number:- 8056573773

Email:-sanjayengg2000@gmail.com

Professional Summary

Software Developer | 3 years of experience in Angular and web development for product-based firms. Skilled in computer vision and Industry 4.0 projects, with a focus on enhancing efficiency and security in case investigation software.

Passionate about frontend development, performance optimization, and building scalable architectures

Technical Skills

- HTML, CSS, Bootstrap
- JavaScript, TypeScript
- Angular, NodeJS, Firebase
- Git, OOPS, Unit Testing , NPM

Work Experience

Hubstream India

Software Development Engineer

Dec 2023 - Jun 2025

- Contributed to front-end development for case management investigation software.
- Designed and implemented reusable components to enhance functionality.
- Optimized the test framework for faster Angular unit test development.
- Wrote unit tests for components, services, pipes, and directives to ensure code quality.
- Developed automated reports for test failures and coverage analysis.
- Built features to streamline and improve delivery processes.
- Identified and fixed bugs to enhance system stability and performance.

BLP-Industry.ai

Graduate Engineer Trainee

Jul 2022- Nov2023

Trust.AI – Computer Vision for Alert Capture

- Developed and deployed an AI-powered surveillance system for real-time alert capture from smart cameras.
- Enhanced alert accuracy and security response through efficient UI and system integration.
- **Clients:** Suvidha (Ghatkopar), Bengaluru International Airport (BIAL) – Bangalore

Spot.AI – Trolley Tracking & Inventory Management

- Led end-to-end development of a smart trolley tracking solution for inventory and asset monitoring.
- Improved logistics accuracy and operational efficiency.
- **Client:** Hindustan Unilever Limited (HUL) – Khamgaon

Conserve.AI – Energy Management System

- Integrated sensor data from HVAC systems and energy meters to enable data-driven energy optimization.
- Implemented predictive maintenance to reduce operational downtime and costs.
- **Client:** ITC – Bangalore

Projects and Certifications

1. NPM Packages

- node-fire-storage

<https://www.npmjs.com/package/node-fire-storage>

Firebase Storage streamlines file management by allowing effortless uploads, downloads, and deletions, making integration with cloud storage a breeze.

- Search.io

<https://www.npmjs.com/package/search-io>

This package simplifies searching within an array, making it perfect for implementing search box functionality.

2. Projects

- Launchpad

<https://github.com/sanjaykrishna1212/launchpad>

This tool facilitates the local deployment and hosting of applications.

- Chat.io

<https://github.com/sanjaykrishna1212/chat.io>

This project enables chat functionality over the same Wi-Fi network without the need for cloud hosting.

3. Certificates

- Angular 8 certification Training (basic to advanced level)

Educational credentials

Rajalakshmi Institute of Technology

Bachelor of Computer Science and Engineering | 2018 – 2022 | CGPA: 8.23

Kamaraj Matriculation Higher Secondary School

HSC | 2017 –2018 | 80.25%

Kamaraj Matriculation Higher Secondary School

SSLC | 2015 –2016 | 94.63%

Languages Spoken

- Tamil
- English
- Telugu
